PROGRAMME OBJECTIVES

1

The programme aims at fostering strong, internationally oriented higher education systems in South East Asia with the capacity to contribute to sustainable development. For this purpose, scholarships for development-related Master's or doctoral studies are awarded to individuals who plan to pursue a career in teaching and/or research at a higher education institution in South East Asia.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

- Qualified professionals' involvement in the solution of development-related problems in South East Asia
- Graduates strengthening education and research in South East Asia
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

Programme objective 1: Graduates have qualified to take over responsible positions in their or for their region of origin

Programme objective 2: The participation of women and underprivileged groups is reinforced

Programme objective 3: Organizational, financial and personal capacities of partner institutions are strengthened

As part of the „In-Country/In-Region Scholarship Programme“, DAAD offers scholarships for Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The target group for scholarships are graduates from Cambodia, Indonesia, Lao, Myanmar, Malaysia, Philippines, East Timor, Thailand or Vietnam with a first academic degree who want to pursue Master's courses, either

- in their home country

(**In-Country scholarships** are aimed at students who study in their home country or in the country for which they have a residence permit.)

- or -

- in another South East Asian country

(**In-Region scholarships** are aimed at students who want to participate in a study programme in a country of their home region (here: South East Asia /outside their home country/in the country for which they do not have a residence permit)).

It has been agreed upon that DAAD cooperates with the Faculty of Pharmacy Universitas Hasanuddin by offering **up to 3 In-Country scholarships/10 In-Region scholarships for Master studies** at the Faculty of Pharmacy Universitas Hasanuddin for the intake 2023/2024.

The awarding of scholarships will be subject to the provision of funds.
